9/05/2023	Daryl Neal	20. Daryl Neal	20.1	Infrastructure	Stormwater	S	<p>The submitter provides further information on why they are concerned about Council's ability to manage stormwater. They understand that the Council approved further housing development in Finlayson Park Estate recently while homes in or near the area were flooded from Awakino River overflow and tropical cyclone Gabriel. They state that 99% of the stormwater from the PPC area will enter the Awakino River overflow, worsening flooding of the Finlayson Park Estate. The submitter also refers to the Phoenix Palms housing development off Awakino Road as an example of their concern about Council's ability / intention to adequately manage stormwater.</p>	N	Y
