

## Connection or disconnection to water/wastewater/stormwater meter

### Property details

Owner's name	
Property address	
Mailing address <i>(if different from above)</i>	
Valuation reference	
Email address	
Contact telephone	Mobile

Type of property	<input type="checkbox"/>	Residential/urban	<input type="checkbox"/>	Rural	<input type="checkbox"/>	Commercial
------------------	--------------------------	-------------------	--------------------------	-------	--------------------------	------------

Number of connections required	<input type="checkbox"/>	Water	<input type="checkbox"/>	Wastewater	<input type="checkbox"/>	Stormwater	<input type="checkbox"/>	Water Meter only
--------------------------------	--------------------------	-------	--------------------------	------------	--------------------------	------------	--------------------------	------------------

Disconnection required	<input type="checkbox"/>
------------------------	--------------------------

Attached is a detailed plan of the proposed connection location. This must be produced in conjunction with Council's Engineering Code of Practice.

## Fees apply for 01 July 2024 to 30 June 2025

### Water

Description	Fee (incl. GST) \$
<b>Existing connection</b>	
Provide 20 millimetre meter and non-testable backflow preventer	295.00
Provide 20 millimetre meter and non-testable backflow preventer	550.00
<b>New connection</b>	
Normal residential connection with testable backflow preventer (applies to 009 High Hazard connections)	
Provide 20 or 25 millimetre connection on same side of road, testable backflow preventer and meter	2,800.00
Provide 20 or 25 millimetre connection on other side of road, testable backflow preventer and meter	3,900.00
Provide 20 or 25 millimetre connection in the road, testable backflow preventer and meter	3,300.00
<b>Normal residential connection with non-testable backflow preventer</b>	
Provide 20 or 25 millimetre connection on same side of road, non-testable backflow preventer and meter	1,400.00
Provide 20 or 25 millimetre connection on other side of road, non-testable backflow preventer and meter	2,550.00
Provide 20 or 25 millimetre connection in the road, non-testable backflow preventer and meter	1,650.00
<b>Other connections/disconnections</b>	
Annual inspection fee for backflow preventer – undertaken by independently qualified person	250.00
Water disconnection fee	330.00

### Notes

1. Council's contractor will provide all necessary components to complete the connection from the main to the property boundary. If the distance from the main to the boundary exceeds 2.0 metres, Council reserves the right to recover actual costs.
2. Council's contractor will provide the meter and install onto an existing connection at the boundary.
3. Council's contractor will only make the physical connection to the Council main and install the toby valve and water meter. The applicant will carry out all other physical works.
4. This section applies where applicable to all connections:
  - a. Where a larger meter is required, a quote will be obtained from Council's contractor. This quoted cost plus 15% shall be paid to Council prior to work commencing.
  - b. Where a connection is not straightforward (e.g. crossing a road or lifting cobblestones) a quote will be obtained from Council's contractor. The quoted cost plus 15% shall be paid to Council prior to work commencing.
  - c. Where land is being subdivided, it is the subdivider's responsibility to provide a water connection to each lot and connect the development's water supply reticulation system to the public system. In all cases connection to the Council main shall be done by Council's contractor and payment shall be made directly by the subdivider to Council's contractor.

- d. Council expects payment to be made when submitting the application to the Council offices. Exceptions will be non-straightforward connections where a quote is needed from contractors to inform applicant of connection costs. If this is the case Council will contact the applicant in regard to payment. Please note no connection will be scheduled in with contractors until payment has been made.

## Stormwater Disposal

Description	Fee (incl. GST) \$
Inspection fees	400.00
Physical connection fee	

### Notes

Connections to public infrastructure can be undertaken by Council Contractors if requested. This incurs the connection fee.

The connection fee is costed for a standard residential connection. It includes a “y” junction and piping to the boundary.

Connections must be made by a certified drain layer. The connection should be inspected by the Building Consent officer.

Connections must be as per Council’s Engineering Standards.

## Wastewater Disposal

Description	Fee (incl. GST) \$
Inspection fees	400.00
Physical connection fee	As per approved contractor’s quote <b>plus</b> 15%

### Notes

Connections to public infrastructure are undertaken by Council contractors or can be completed by a certified drainlayer by arrangement with the Council engineer.

The connection fee is costed for a standard residential connection. It includes a “y” junction and piping to the boundary.

Connections must be as per Council’s Engineering Standards.
